December 2026

# You Are Their Miracle

*Freddie - July 2023 upon arrival*

*Freddie - October 2026 - Living his best life*

**Freddie** will tell you just how much of a miracle you are in his life. They say a picture speaks a thousand words and we hope you are inspired by what kindness, love, and high quality care have done for Freddie. He came here in 2023 at the lowest point in his life. He was emaciated and suffered a deep laceration injury to his cheek that was in bad need of help. He was sad and disheartened and felt abandoned in his life.

**Thanks to you,** we were able to offer him a place here with all the care he needed and deserved. He walked in and never looked back.

Freddie received intensive wound care for weeks until he healed. He received dental care so that he could eat properly and gain the proper nutrition from his food. But most importantly, Freddie knew he was now safe and loved. And with all of that, he thrived. Look at him today!

Without your help, Freddie would never have survived. Today, he thoroughly enjoys his life with both his horse herd and human herd who adore him. What a difference you have made!

# You have helped in so many ways ....

## Arabella

Arabella is a very special girl and, at 16 years old, she is one of our elder cats. Arabella entered our care at just one year old when she started showing signs of special needs. She never would use a litter box which kept her from getting adopted. Now, in her elder years, she has several special needs that require very specialized care. Arabella has a herniated bladder which means she needs us to express it for her 3 times per day. She also has a terrible ear condition that requires deep cleaning weekly. And recently, her gradual loss of eyesight resulted in total blindness. But even with all of those challenges, Arabella is a very happy and snuggly cat. She loves snuggling up in a warm soft blanket with several other elderly female cat friends. She never stops letting us know how grateful she is for the care she is given. Arabella is happy to be alive. She is enjoying her life in spite of her challenges. She has you to thank for all of it and we can assure you she is very grateful to you.

## Clarence

Clarence came to us in late 2024 after he was rescued through law enforcement in a horrific animal cruelty case. While Clarence did not walk in our door emaciated or injured, his wounds are the type that you can't see by just looking at him. Clarence, understandably, had lost faith in humanity. But worse than that, he lost hope. When animals like Clarence first come in, we can see the empty look in their eyes and we know we are seeing pain on a different level. Treatment and healing comes one day and one step at a time. Clarence has a sparkle coming back in those eyes and he is starting to trust us more and more. But the most exciting thing we can see in Clarence is peace and happiness. Having those taken away from him left him all alone in this world. But with your help, he now knows he is part of a family. He is safe. He is loved. And he is healing. We thank you for putting that light back in his eyes.

## Oreo

Oreo came to us in 2025 after her owner passed away and there was no one to take her in. Oreo was in very poor condition. She was 17 years old, extremely obese, could barely walk due to arthritis and we discovered she also has diabetes. Oreo is the sweetest cat and we immediately set out to treat her for the many ailments she has. In the past year, Oreo has lost weight. Thanks to medications for her degenerative joint disease, she is actually able to walk again and even get in and out of litter boxes. Her diabetes has been a major challenge. Multiple types of insulin have been tried but we just could not get her blood sugar regulated. We invested in a Constant Glucose Monitor which gets attached directly to her and monitors her blood sugars all day and night. We finally have been able to regulate her insulin and Oreo has a whole new take on life. She never once gave up and was very clear that she didn't want us to give up on her. Oreo got a second chance because you were there when she needed help the most.

# And you are still needed ....

## Marmalade

Marmalade showed up after a kind person saw her just miss getting hit by a car. She had been spotted out on her own for a few nights and clearly seemed lost. We took her in as we believed there was a good chance she was just lost and someone could be looking for her. Sadly, after scanning for a microchip and making a good attempt to find her person, we came up empty. While we don't know anything at all about her history, what we do know is that Marmalade is a senior cat and she is incredibly sweet and loving. She clearly has some health issues that we are currently exploring so that we can get her all of the care that she needs. While we can't say much about what is happening right now, we can tell you that you saved this kind old soul from dying in the cold, wet, street. And she lets us know every single day what that means to her. She is very grateful!

## Whitey

Whitey has had quite a rough start to his very young life. But if ever there is a story about kindness and compassion, Whitey owes his life to the kindness of strangers. Whitey was rescued by a very kind man who literally saved him from the jaws of a dog. But he didn't stop there. Whitey was not even his cat yet he saw him in distress and paralyzed and he rushed him to an emergency vet hospital. Whitey was radiographed and examined and no immediate cause was determined for his paralysis. His spinal cord was intact and nothing was broken.

Whitey is a most amazing light in this world. Nothing has stopped him from loving and purring and snuggling with every human he comes in contact with. He is the most trusting of souls. And the fact that he can't walk right now seems not to faze him in the least.

Whitey is now with us and we have started exploring what is next for him. He has been re-evaluated and it is believed there is hope for at least one of his back legs to regain function. He is getting therapeutic treatments and undergoing rehab exercises. When we can get him to slow down, he is starting to be able to stand up with our help. You are there for Whitey step by step and we will see where this young man's journey will take him. Right now, he wants you to know he is a normal, happy, playful kitten and, thanks to you, he is full of hope. Whitey is living proof that when many hearts come together, miracles can happen.

You have our heartfelt gratitude for all that you do for the animals and our mission. Together, we have saved many lives, eased pain, comforted the lonely, and brought back hope. In turn, we have watched these same animals return the healing to many human hearts who are aching. We watch them reach into the hearts of humans in a way that no one else can. Pure unconditional love. Tolerance. And no judgement. It is a healing circle. We could not do any of this without you.

**All the best wishes to you and your family,
from the Directors, Staff, and Animals of
Spring Farm CARES**

## Our Gift To You

### Daily Messages of Gratitude From The Animals
### November 26th - December 31st

This has been an annual tradition for several years now. Many of you have told us that it has become a tradition in your families to read these messages and share them. Each day, a message from one of our animals and their photo will be posted to our Facebook Page and on our Website. The animals are asked, "What are you most grateful for?" You will be inspired by their answers.

And back by popular demand! Each day, a video of the animal will also be posted with Dawn reading the message from that animal.

**You can find the messages here:**
