

Buns

"What I find most joyful in life is the relationships that I have with others. I love when my heart feels full because I got to snuggle up to someone and I know I got to make them feel special. I like simple things really. That doesn't make me a simple being. Humans often think rabbits are small and don't have much to offer. But, oh, you are mistaken if you think that. I know I am a very large spirit and my energy is bigger than the building I live in. And I know that what I make of my life is what is most important. I am grateful to love and be loved."
